USGS QUAD MAP MADISON JUNCTION (1986)

NGS PID PY0087

LATITUDE 44.64976907

LONGITUDE -110.8463158

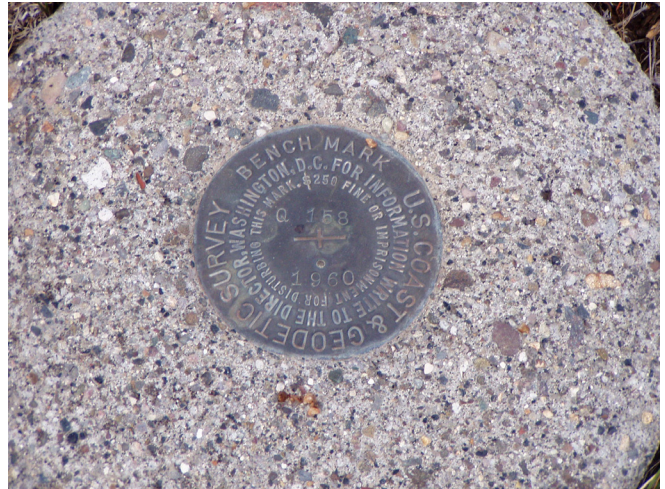

ELEVATION 2096 m

DATE OF DESCRIPTION 2002

DESCRIPTION Proceed 12.7 mi southwest along the Madison-Norris highway from the junction at Norris (alternatively, 0.65 mi northeast from the junction at Madison). Bench mark is 70 ft north of the centerline of the highway, 90 ft east of the east rim of Terrace Spring, 61 ft east of a boardwalk, 28 feet south of a boardwalk, about level with the highway, and in the top of a concrete post projecting 3 inches. If driving to station, do not enter and park in the Terrace Spring parking area, since mark is well west of there. Instead, pull off the road on the north side just west of the Terrace Spring parking area entrance.

Looking west at highway, Terrace Spring, and bench mark (beneath yellow case).

Close up of bench mark.

Looking southeast at highway (with car) and bench mark (beneath yellow case).
